Abstract—Guilin is not only a minority living area that full of profound folk cultural but also a world famous tourism city. Research and analysis of the Guilin folk culture, give full play to its inheritance and creativity and display in the form of animation, it is a meaningful exploration and research for the transmission of culture, tourism development, the promotion of local economy. From the renewal of the concept to the adjustment of mode, to penetrate the local folk culture animated design, this also allows the local tourism more competitive advantages and characteristics.

Keywords- folk culture; animation design; digital technology; tourism economy

I. INTRODUCTION

Foreign scholars began to study art and tourism from nineteen nineties. Urry (1990) in his " The Joy of Travel " pointed out: " the tourism destination that the tourists selected is based on the entertainment, realizing dream, the desire for participation and the desire is made of some factors that are not tourism elements, such as film, television, literature and magazines and so on". Visible, targeted marketing of commercial animation can attract people by the unique effects to the propaganda animation to travel. Currently, in Europe ,the United States, Japan and South Korea. profit value and comprehensive benefits that created by the emerging animation tourism and cultural creative industries are larger than that created by the traditional automobile manufacturing, oil and energy industries and other entities of economy, and it has been another world big new knowledge economy. For example, Disney animation culture industry, through the development of the theme park, extends to the global tourism industry and creates a huge economic value. Japanese and Korean animation "Ultraman", "Crayon" cultural and creative products quickly spread throughout the world and attract a large number of overseas tourists to visit tourist cultural animation base.

In recent years, China's rapid development of animation industry shows a vigorous development of the state of affairs. In particular, the application of network technology, such as online advertising, MMS, mobile media, provides more ways and broader platform for the dissemination of commercial animation. Fairy color Ocean Park in Hong Kong is the only one to enter the Forbes top ten theme parks around the world ranked seventh. Shenzhen Window of the World and China Folk Customs Park created by OCT Group draw on Western fairy tale theme park mode, by folk cultural propaganda, they access to the economic and cultural effects of attention, and promote the development of tourism. The rapid development of the Anime tourism and creative industries in the Yangtze River Delta region, where established a Water Margin City, Three City and so on, has been the success stories of native culture used in the animation industry and tourism phase conjugate. 2010 China. Shanghai World Expo China Pavilion, " Qingming Riverside " made into a large ink animation projection to show the visitors vividly the living conditions of the Song Dynasty, it is another precedent animation successfully applied in the tourism industry. The second session of “China. Guilin innovative creative cultural festival cum Guilin International Cartoon and Animation Festival "held in Guilin, in October 2010, this fully reflects that Guilin municipal government attaches great importance to the development of cultural and creative industries. It is of an important practical significance that Making full use of this platform and the animation industry to promote the study of Guilin tourism .

II. GUILIN IS NOT ONLY A TOURIST CITY BUT ALSO A CIVILIZED ANCIENT CITY WITH DEEP FOLK CULTURE

Guilin is a famous tourist city in the world. It is also one of the first 24 historical and cultural cities. Geographically, as a transportation hub Zhongyuan and Lingnan, Guilin absorbed Wuyue Culture, Central Plains Culture and Jingchu Culture, it formed its own unique cultural characteristics. From Zhen Pi culture to resistance culture, the artistic value of its heritage can be comparable with the artistic value of Wu and Yue. Cliff, Guilai Forest of Stone Tablets, Ruin of the monument, blue and white plum bottles in Guilin documented a lofty historical and artistic value of the economy, culture, architecture, painting, folk, ethnic relations in the 1,700 years. [1] Guilin Features unique cultural customs of the ethnic minorities, such as Zhuang, Dong, etc, is also the artistic treasures of high research value. From the dealer the construction of the lever bar to Liu San Jie’s Song Festival, the Huaqun blouse of the young people, ceremonial musical instruments, and all of these imply a rich local culture [2].
Guilin Nuo culture is a bright pearl in the local folk cultures. Song Dynasty, Guilin was Nuo art center. In 2006, the Nuo opera was selected for the first batch of national intangible cultural heritage directory. Today, Guilin Yao Nuo mask production process level is among the nation's top spear, the Fuli town in Yangshuo county, Pingle County, Longsheng County and so on have a heritage of Nuo culture. Guilin Nuo culture is an important part of traditional Chinese culture, and vigorously carries forward to it and creates economic value for the local, inheritance and protection of intangible cultural heritage in China is of great significance.

III. COMBINATION OF TRADITIONAL AND MODERN, USING THE FOLK CULTURE ANIMATION DESIGN TO PROMOTE THE DEVELOPMENT OF GUILIN LOCAL TOURISM

The design and creation of the animation is inseparable from cultural support. We can not just unconventional, or drift, we should be down to earth from the study of the local culture, explore new ideas and create animation design with a rich Guilin culture and Guilin Features.

The performances with animation form of the spiritual and cultural essence of Guilin Nuo masks art, Nuo song, Exorcise, Nuo opera and so on can facilitate the latter part of tourism promotion and construct tourism promotion of the Guilin Tourism shaping and the cultural connotation image, and drive the promotion of other attractions. Among the Guilin Gongcheng Yao God Nuo array, Lingui Nuo opera, Longsheng Furong Village Nuo opera,Yangshuo maoshan Nuo masks, Mazu Festival Exorcise etc, we select typical representative of the specific case, study and analysis the market, tap the local traditional cultural elements and create commercial animation clips design, by this way, we can carry forward the local culture and attract tourists. for example, Guangxi Guilin Shigong play belongs to amuse and entertain Nuo activities, it is a form of expression of the local Nuo. It's position in the theatrical community as much as the wedge, Pihuang, lantern system opera. Art aesthetic, its early manifestations of the Shigong misfortunes in praying for the people, exorcism and illness, bring the mask of God, the pretexting God fell, side song while dancing. Hard creation of people, exorcism and illness, bring the mask of God, the manifestations of the Shigong misfortunes in praying for the human. With the expansion and development of the repertoire, the Shigong play, generally with no mask, minority song and dance with the woodcut masks or paper masks, and most use make-up method of shaping the character. Nuo masks, and make them into a cartoon short form, Make Guilin attractions and beautiful scenery, local specialties, folk customs design into animation in the form of the picturesque Ink animation, humor, video clips, they are not only convenient to non-material cultural heritage protection but also ease of folk culture tourism promotion. By means of animation design in the form of the local culture to promote Guilin local tourism business promotion, to carry forward the heritage of the indigenous folk culture of Guilin, to shape the image of civilized cities in Guilin, to highlight Guilin cultural and spiritual connotation, and it is in line with the home and abroad trend that vigorously promote the development of animation industry and the local modern tourism advertising.

IV. TO DEVELOP THE TOURISM ECONOMY WITH TOURISM PROMOTION IN THE DIGITAL TECHNOLOGY

With the continuous development of computer digital technology, Animation software changes with each passing day, Currently on the market there are many 2D animation software such as ANIMO, USANIMATION, TOONZ, RETAS PRO, Harmony, Toon Boom Studio and FLASH, the cartoon, such as " Naruto ", " death ", " one piece ", " Princess ", produced in these 2D software reflected exquisite hand-painted skills of animators. 3D software is 3D MAX, MAYA, LIGHTWAVE, SOFTIMAG, etc and " ice age ", " cars ", " Monsters Inc ", " tumblebugs ", " Madagascar ", " magic " and so on are all designed by 3D animation. The development of computer software technology rapidly promotes the animation design reach a new level. Guilin Nuo opera, the Shigong drama, etc., and then sort out, heritage the folk culture such as Nuo opera, Exorcise, Nuo masks, and make them into a cartoon short form, Make Guilin attractions and beautiful scenery, local specialties, folk customs design into animation in the form of the picturesque Ink animation, humor, video clips, they are not only convenient to non-material cultural heritage protection but also ease of folk culture tourism promotion. By means of animation design in the form of the local culture to promote Guilin local tourism business promotion, to carry forward the heritage of the indigenous folk culture of Guilin, to shape the image of civilized cities in Guilin, to highlight Guilin cultural and spiritual connotation, and it is in line with the home and abroad trend that vigorously promote the development of animation industry and the local modern tourism advertising.
media, DM ad and other means of communication to most vividly demonstrate these in front of the tourists and allow tourists refreshing. Tranfomring the traditional static forms of tourism promotion into animation form of dynamic publicity has become a new trend of the development of a modern tourism advertising, it has a wide range of publicity, high speed, high efficiency advantage of the characteristics. Such publicity is more popular than the publicity of the various tourist company printed flat better guide consumption.

The development of tourism economy needs to stimulate tourism consumption, the tourists consumer psychology internal factors are perception, need, motivation, personality, attitude, learning. Travel motivations of historical motivation has four factors: Traveling for health, for education, for seek spiritual values, for self relax. With natural scenery and cultural landscape in Guilin tourism factors, vivid animation design promotions enhance the attractiveness of scenic spots in Guilin, can better mobilize tourists perception, stimulate the tourism needs of inspired travel motivation. When the tourists have the motivation, with the internal driving force, the tourists will be positive for the realization of the goal and action. Make full use of local culture commercial animation to promote culture connotation of Guilin tourism, and take the following the route of transmission: release the commercial animation design film with local characteristics in the network, on removable media in city buses, train station, bus station exit, center square and other large electronic screen. We can also be associated with China Mobile, China Unicom cooperation, using MMS ways to do publicity on the mobile phone that roam to Guilin for attract tourism consumers. This user-friendly mode of transmission allows tourists willing to accept psychologically. They are also more particularly to attract tourist groups with photography, animation painting, and other preferences as well as family tourists with children. This tourism promotion way avoid the psychological offensive that tough boring tamponade tourism advertising bought to the visitors, and achieve the purpose to promote Guilin economy.

V. CONCLUSIONS

Digging out Featuring Nuoculture from many folk culture, combining of art and culture, combining of art and business, combining of traditional folk culture and modern digital means, all of these have important practical significance and research value to promote Guilin tourism and local economic development and to make contribution to Guangxi region economy, in the new digital era, it is also a new trend in tourism promotion.
